Subject: FW: Request for USDA and USGS for access to ASPECT Imagery services
Date: Tuesday, September 5, 2017 9:47:47 AM

Joe and Eric,

This request came across from USGS and USDA. Is it ok to provide them access to the ASPECT Flight images from our AGOL site?

Subject: Request for USDA and USGS for access to ASPECT Imagery services

Joe,

When you have time, please give me a call about a request for USDA and USGS for access to ASPECT Imagery services. Also I wanted to let you know that our new contract includes a subcontractor (Woolpert) that is a true remote sensing company with airborne (manned and unmanned) capabilities. They have already stood up Harvey imagery with full public access as a general contribution to the response effort. This is something they did on their own without any government or private customer direction. I can get you a summary of their capabilities and costs if you would like it.
